

## Field Trip of Economics Department: A Report

The Department of Economics, Lady Keane College organised a field trip to Mawkisyiem, Laitmawsiang Sohra for the 6<sup>th</sup> Semester on the 29<sup>th</sup> of March 2023. Nineteen students joined the fieldtrip accompanied by three faculty members along with a staff of the College. The journey to the said location started at 9 am from the College. This field trip was a joyful and memorable one for the students. The students not only enjoyed the scenic beauty of Mawkisyiem where they get to witness the beautiful waterfalls and experience a walk through the cave and man-made bamboo bridge but also get to learn about how such a tourism spot is managed sustainably by the local people. They had also witnessed first-hand how the local people benefitted from this tourist spot through the creation of employment opportunities and the generation of income to the people of the area.

The lesson learnt by the students from this trip is to harness upon the available resources optimally which will not only help in preserving nature and its beauty but also help in the generation of income and employment.

(Dr. B.R. Syiem)  
Head of Department  
Economics  
Lady Keane College, Shillong.
