Free Education Scheme to Orphan and BPL Students

Objective: To provide free access to education to orphaned students and students from economically weaker sections.

The College offers a Free Education Scheme to orphaned students and students from economically weaker sections which can be availed through a simple application and screening process conducted internally by the Institution. For this assessment period, out of the two applications received, one student has been granted the Free Education Scheme while the second applicant has received sponsorship from a private individual. The Free Education Scheme assures free education for the student until graduation from the College.

The College also offers financial assistance to students belonging to the BPL category and for the academic year 2022-23, 5 students have received financial aid from this fund.

This scheme allows the institution to pursue its objective of providing education to women as a means to empower them.
