Session Details:

A webinar session on “A Roadmap towards Your Academic Progression (Academic Counselling and Employability Guidance)” was conducted for the Final Year students of Lady Keane College of different Streams. The webinar gave an insight on the various courses and specializations that a student can opt for, based on their passions, strengths and capabilities keeping in mind their ultimate career goals. The purpose was to equip students with the necessary knowledge on options available to them so that they can make better decisions leading them to a more satisfying and successful career. The webinar emphasized on the point that there are various opportunities that are now available to the students of different streams to pursue their further studies and how we develop a service that significantly improves the academic life of students. We also provided support and guidance to students with the choices of destination for study; like getting an admission, course selection, visa consultation and assistance in getting relevant information to various educational institutions around the world.

Other than Academic progression, our counsellors stressed on Employability, and how students can put themselves in a position whereby they gain initial employment; maintaining long term employment and obtaining new employment, if required. We highlighted on the set of skills they need to possess to get employed in different sectors of Corporate/Industry. Students were also briefed on what qualities employers look for in their new recruits in order to build relevant work experience and preparations for interviews. The idea behind this section of the presentation was to give the students an idea of what can be expected as they prepare to embark into the professional world and bring about new and positive prospects in their lives for a bright and successful future.

We believe that our extensive knowledge in the field of education and our unending endeavours to provide students ‘stress free services’ that can help them unlock their true potential whereby they can strive to be the best they can be in their chosen fields of profession. We look forward to maintaining a productive and sustainable relationship with your institution as we work jointly towards the students’ academic and professional success.
