

Outreach Program organized by the Department of MIL : A Report

The department of MIL has organized an outreach program on the theme “Spreading Love and Happiness through Sharing” to Shanti Bhavan, Shillong situated behind the Raj Bhavan which is an old age home where all abandoned and physically challenged people- young and old were taking shelter in. This organization is run by the Christian missionaries in order to cater to the needs of the needy and poor. The 2nd and the 4th semester students were accompanied by 3 teachers of the MIL to this program.

The main objective of this outreach program was to expose the students to the world of reality wherein they learn some moral values of how to care, share and respect human being irrespective of cast, creed, age or gender. It is always learnt that literature is the mirror of society. Therefore, as a department, we felt the need to teach the students by showing them the reality and truth of a not so perfect world even outside the classroom and textbook lessons.

The program outcome for this visitation was remarkable and successful as we had a small gathering in the venue with all the residents and caretakers. Dr. Jean S. Dkhar, Head of the Department co-ordinated the program by giving a speech and sharing the word from the Holy Scripture followed by a prayer. Thereafter, the students got an opportunity to share their experience and interacted with the residents in that place.

Total amount received from the college is Rs.20,000/- (groceries, refreshments & taxi fare)
