More representations by young and energetic teachers in the university is required so that Suggestions coming from college teachers can be implemented by the BOS. Presence of more teachers who are older makes the board to cut down much part of the syllabus which is not supposed to be removed.

There should be more room for practicals in the syllabus

More importance and time for hands-on-work and field work for students.

NEHU must accommodate suggestions of college faculty.

I don't have any points on other matters but regarding Garo subject it would be great if honors also could offer. Thank you.

review the syllabus and compare with the syllabus of other universities to help students clear the entrance exams after graduation

The examination pattern should include objective type questions

Syllabi needs to be updated by affiliated university

No, thanks.

Curriculum need to be updated regularly as per the market demand. Many other universities has updated their course curriculum based on market demand.

Prescribed book should match the syllabus, some prescribed books are too outdated

No suggestions from my end but I think with the NEP about to be implemented even at UG level, we will be seeing a lot of changes in the curriculum

No comments

May be added some innovative applications with this change of time

No suggestions

Revision of syllabus is the need of the hour. Inclusion of more relevant topics and project work in the new syllabus.

One semester should be allotted for students to take up small projects or research work.

Have to take this up with affiliating University.

If syllabus content can be checked with respective book edition as books available are updated edition however some syllabus are with old edition books.

Affiliating University to consult college teachers in curriculum design and development.

Objective of the paper should have been clearly defined first to improve the contents and relevancy of the course.

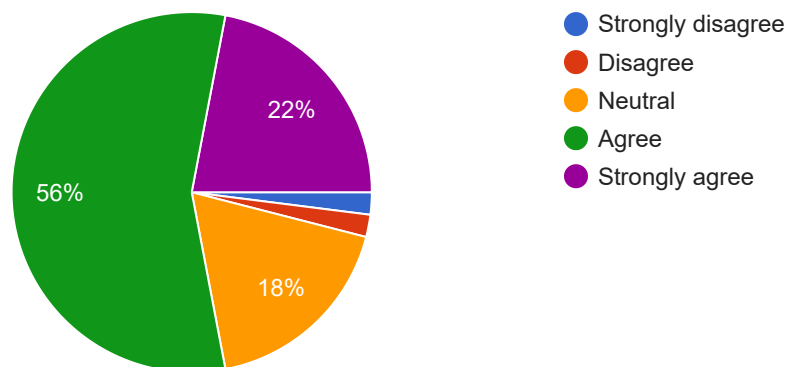

Need proper channel to submit feedback of our subject

Internet facilities has to be improved

Smart boards with internet connection is required (ICT facility)

ICT tools in classrooms should be more workable. Interactive programs among teachers to share teaching techniques, etc.

Increase the seating capacity of the Library

Prescribed and reference books for are inadequate in the library

No, thanks.

Non teaching work should be equally distributed so that teachers may be able to give more time in teaching, learning, evaluation and research

Setting up a microbiology laboratory with proper inoculation chamber will be a boon in the field of projects and research that can be taken up by the faculty and students

More number of toilets is required

Maintenance, Cleanliness, and more cc tv installation at strategic location are needed. Bigger Students common room, more sports facilities are needed .

Bigger classrooms required, benches and desks should be painted annually, washrooms should be clean, drinking water should be tested, cleaners should come early to maintain cleanliness, office and library should open early for morning section students

Room capacity should be improved, cleanliness could be enhanced, ICT tools should be workable.

Construction of and additional building would be desirable

Urgent need of modern classrooms

Students need more recreational space

Toilet should be clean even if not everyday, should be clean alternate days

Campus beautification and find out solutions to make the blackboard readable for students in many rooms

Toilets have to be maintained

Staff room lacks proper drinking .

No, thanks.

Creating more rooms to help ease the hassel of availability of classrooms and also setting up a microbiology lab or an animal house to boost research work among the faculty
