

Zoology Department
Wildlife Week Celebration 2024
Celebrating our precious wildlife

Objective:

1. The event aims to enhance students' understanding of diverse species, their habitats, and ecological roles
2. It also emphasizes the critical importance of conservation and addresses the significant threats that wildlife faces, including deforestation and poaching.
3. To inspire curiosity and foster a deeper appreciation for nature, all while creating an engaging and enjoyable learning experience.

"Taking a moment from our usual daily routines to honour and protect the incredible creatures that share our world, the Department of Zoology at Lady Keane College hosted an Inter-College Quiz Competition in partnership with the Zoological Survey of India, Shillong. This event took place on October 3rd, 2024, at the Lady Keane College Auditorium, bringing together enthusiastic participants to showcase their knowledge and passion for wildlife.

Outcome:

113 students participant and teachers from seven esteemed colleges from the vibrant city of Shillong participated in an engaging quiz competition, skilfully organized by the Shillong Quizzing Society. After a thrilling contest of knowledge and quick thinking, St. Anthony's College emerged as the champion, while St. Mary's College secured an impressive second place and Synod College took third. The event was graced by the presence of the chief guest, Shri R. S. Gill, IFS, Principal Chief Conservator of Forests and Head of the Forest Force. His presence added significance to the occasion. Smt. Jennifer Lyngdoh, a noted Scientist-E and the Officer-in-Charge at the Zoological Survey of India in Shillong, delivered an insightful talk on the vital importance of wildlife. She eloquently shared her views on why wildlife week deserves recognition each year, highlighting its critical role in fostering awareness about wildlife conservation and promoting a harmonious coexistence between humans and the natural world.

Wildlife protection is an essential part of preserving life on land and ensuring the survival of countless species that play critical roles in maintaining the Earth's ecosystem.

The involvement of youth and students in wildlife protection efforts is crucial for the conservation of our planet's biodiversity. Thus, involving the young zoologists in the present event not only help them learn more on about the subject, but, also since young minds have unique perspectives, energy, and creativity they can contribute to wildlife protection efforts in a variety of ways. Thus, keeping in mind the objectives of the event, we were able to harness the interest of young people so that we can work towards a more sustainable future for ourselves and future generations.
