

YOUTH INCLUSION AND ENGAGEMENT ENABLING SUSTAINABLE LIVELIHOOD FOR YOUNG PEOPLE

(Organised and conceptualised in Collaboration with *Grassroot*, Shillong)

A REPORT

Grassroot is an indigenous people's rights-based organisation. It mobilises different organisations to interact with students on career in the NGO sector and other such groups. *Grassroot* guided them on different trainings for later sustainable self-employment job

opportunities. *Grassroot* is opened to internships, volunteers and field placement experience for young minds.

This one-on-one interactive programme was held on 12th March, 2025, an outdoor event within the college campus. It saw more than 100 students attending it with curiosity and attentiveness. The incoming of the students was so overwhelming that only 101 could be registered. *Grassroot* hopes to have more interaction with the students in the future, to further inspire and motivate them.

Grassroot Approach: To reach their potential, young people need decent employment, financial inclusion and opportunities for agency and participation with focus on youth work and entrepreneurial skills, employability and work readiness.

Methodology: Student face to face interactions with:

1. Centre Of Learning Knowledge and Services (COLKS) a thriving local company with its vision to creating an ecosystem that generates over-all economic growth through sustainable environment harvesting came as one of the resource persons to discuss with the students on the various job employability free trainings that they offer.
2. Nathiar Co-operative Society a very nasant society of the single mothers of Umlyngka came to share their stories with the students on how they began their journey as a chips and processing unit.
3. Duia Trailblazers adventure tour operators is another local company that was started by a young tourism background individual with an enthusiastic objective to take tourists; local and others beyond the imagination of Meghalaya
4. Meghalaya Rural Bank, Shillong Branch came to support the financial inclusion journey in the organised programme with their conversations on schemes and loans availability. They communicated with the students on student loans, pension schemes and many others.

The event was extremely successful and effective in reaching out to aspiring students. Participants gained practical knowledge and insight into career choices and the logistics involved.

- Dr. R.J.Nongrum,
(Co-organiser)
