Introduction

Soft Skills is a very popular term nowadays, used to indicate personal transversal competences such as social aptitudes, language and communication capability, friendliness and ability of working in team and other personality traits that characterize relationships between people. Soft Skills are traditionally considered complementary of Hard Skills, which are the abilities to perform a certain type of task or activity. Soft Skills are strategic to be successful in personal and professional life then is essential for the students when they try to obtain any kind of job. Enterprises generally hire new employees, in particular recent graduates, taking more in consideration their Soft Skills than their Hard Skills. This happens also for technical professions, because the company, in order to be competitive, needs to create good and effective teams and a collaborative working atmosphere.

The Department of Computer Science not only aims to provide students with curriculum knowledge but also to equip them with different soft skills before they graduate to help them prepare for their future. Keeping this in mind, the Department of Computer Science, Lady College Shillong in collaboration with Avenues, Shillong organised a Two Week Student's Development Programme titled "Improving Employability in Campuses" from 26th July, 2022 – 10th August 2022 in the College Auditorium.

Aim & Objectives

By the end of the training program, the students should be able to:

- Develop effective communication skills.
- Develop effective presentation skills.
- Become self-confident individuals by mastering interpersonal skills, team management skills, and leadership skills.
- Develop all-round personalities with a mature outlook to function effectively in different circumstances.
- Prepare their resume
- Prepare them for interview

No. of Participants: 83 (Eighty Three)

Target Audience: All BCA students of Lady Keane College
