1. To enable the students to explore, comprehend, analyse and synthesize the concepts and ideas from different sources.
2. To develop in the students the ability to engage in self-study habits.
3. To facilitate the students to develop communication skills.

Students learning outcomes (SLOs):

1. Understand the concepts understudy
2. Develop communication skill
3. Build up confidence in communication
4. Apply the knowledge of communication skills in communication.

After all the groups have made their presentation, questions related with the presentations were being asked by the audience students and discussion took place. It was observed that the students have taken the matter with great interest and had made their presentation very attractive and meaningful. It is also observed that some of those students who had made their presentation were really good communicators.
